

# Join us during the month of April!

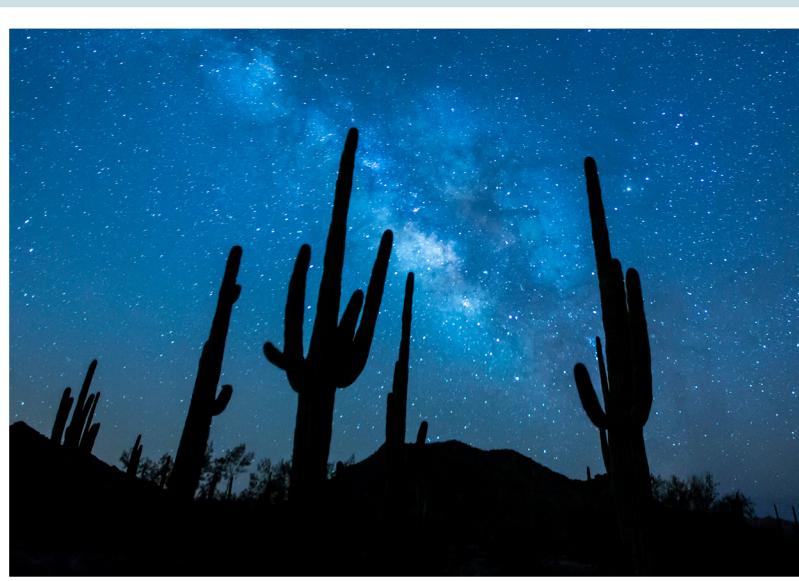

## CITIZEN SCIENCE MONTH

Turn your curiosity into impact with a citizen project.  
Learn how your contributions can lead to new discoveries.

### FEATURED CITIZEN SCIENCE PROJECTS INCLUDE:

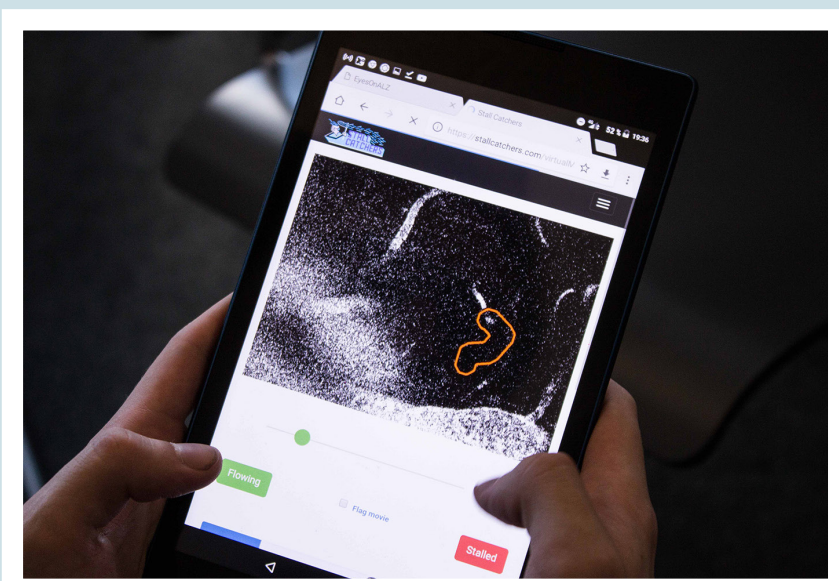

**Flu Near You**  
Help predict flu outbreaks by sharing your symptoms online.

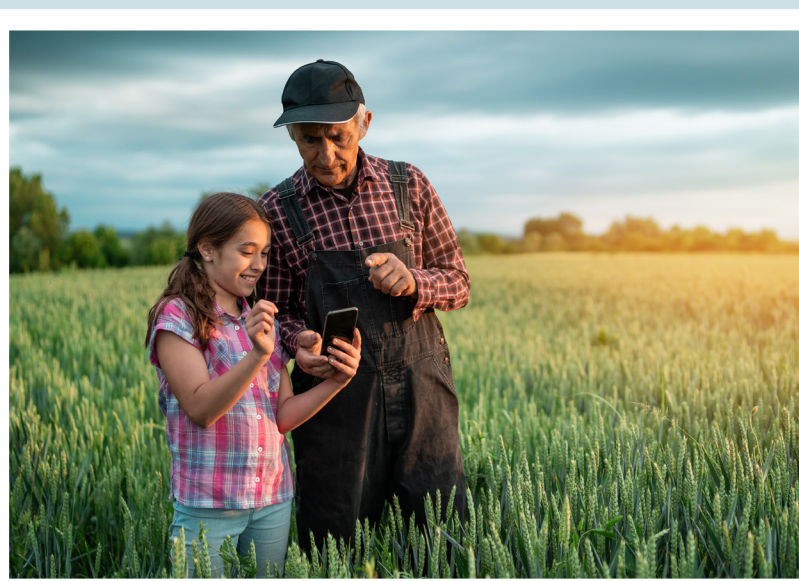

**Globe at Night**  
Measure light pollution while stargazing and help protect the night sky.

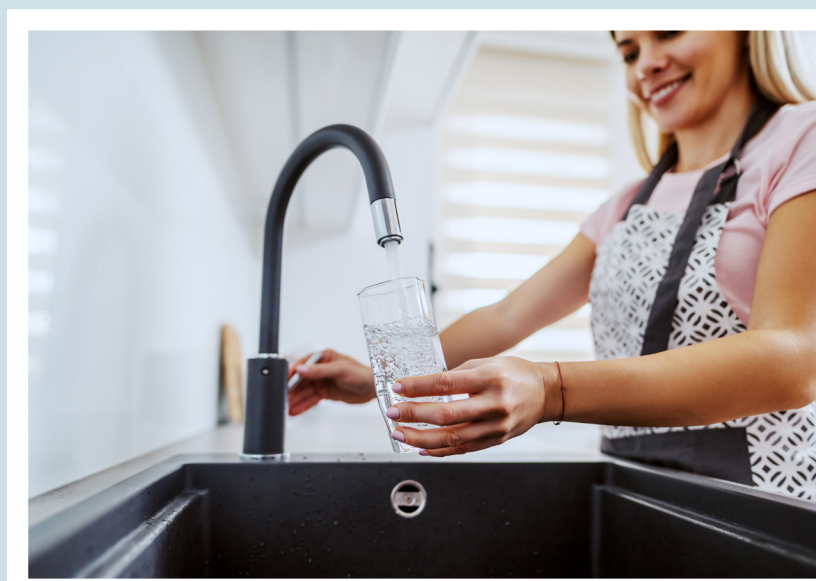

**Debris Tracker**  
Use an app to report and categorize litter and help protect coastlines.

**Stall Catchers**  
Play a simple online game that can help speed up Alzheimer's research.

**ISeeChange**  
Show how local weather and climate changes are impacting your community and the world.

**Crowd the Tap**  
Join the first national survey of pipe materials to help ensure safe drinking water for all.

Citizen Science Month is presented by SciStarter and ASU with support from the National Library of Medicine.

**scistarter**  
Science we can do together.

**ASU** School for the  
Future of Innovation  
in Society  
Arizona State University

 CITIZEN SCIENCE  
ASSOCIATION

**All of Us**  
RESEARCH PROGRAM | **NIH** NLM > NNLM  
Training and Education Center

**NATIONAL  
GEOGRAPHIC**

**science  
FRIDAY**

Connect with Citizen Science Month events and find projects that match your interests!

## WHAT IS CITIZEN SCIENCE?

Citizen science is a collaboration between scientists and everyday people that helps accelerate research and discovery, from astronomy to zoology. SciStarter.org can match you to the right project based on your interests, location, and favorite activities. You can make an impact!

Citizen Science Month is presented by SciStarter and ASU with support from the National Library of Medicine.

# Tell us!

*What citizen science projects have you participated in?  
What are you interested in investigating through citizen science?*
